Delta UPS-Ultron Family

HPH Series, Three Phase 20 - 120 kW

Best-in-class power protection with maximum power and cost efficiency

The Ultron HPH is a true online double-conversion UPS offering the best-in-class combination of maximum available power, unbeatable energy efficiency and superior power performance for small data centers and other mission critical applications. With fully rated power (kVA=kW), the Ultron HPH provides maximum available power without de-rating the UPS. Thanks to the three level IGBT topology for both PFC (power factor correction) and inverter, the Ultron HPH features up to 96% AC-AC efficiency. Delta's advanced digital PFC control also contributes low iTHD < 3% and high input power factor > 0.99 resulting in significant TCO (Total Cost of Ownership) savings. Facilitating increased availability and power performance, the Ultron HPH is an ideal solution for protecting your mission critical operations.

Best-in-Class Power Performance and Efficiency

- Fully rated power (kVA=kW) for maximum power availability
- · Leading AC-AC efficiency up to 96% saves energy costs
- Low harmonic pollution (iTHD<3%) and high input power factor (>0.99) reduce upstream investment costs

Assured Reliability

- · Wide input voltage range allows the UPS to operate in harsh electrical environments and extends battery life
- DSP based technology enables reduction in the number of electronic components to lower failure rate
- · Redundant auxiliary power and fan design* enhance system reliability

Greater Flexibility

- A wide choice of configurations, such as N+X redundancy and hot stand-by
- · Adjustable charging current and charging voltage meet different battery configuration requirements
- · Flexible battery configuration optimizes battery investment

Superior Serviceability and Management

- Front-door battery replacement with hot-swappable battery tray design supports easy and guick replacement without turning the unit off (HPH-B / BN)
- Swappable interior architecture and front access servicing enables quick and easy maintenance*
- · Multi-connectivity interface supports remote UPS monitoring and management

High power performano
HPH series LIPS

Control and LCD Display Panel

Swappable interior architecture for quick and easy maintenance

enhances system reliability

Delta offers a full range of UPS solutions from 600 VA to 4000 kVA to fulfill your power security needs.

HPH-B: UPS integrated battery model has batteries inside HPH-BN: UPS integrated battery model has no batteries inside

- * Applied for models HPH-60/80/100/120K
- ** At 70% load with internal battery strings.
- *** UPS needs de-rating for battery quantity 32-36 pcs. Please contact authorized Delta personnel.

All specifications are subject to change without prior notice.
